I highly request that you do not remove the Traffic and weather channels from the XM Radio lineup. They provide an amazing service, one that is not accomplished anywhere else, including local radio. I also feel that this is limiting my right to receives services I have paid for, and I will not let the National Association of Broadcasters dictate what I can and cannot hear! I respectfully urge you to ensure these rights are not infringed upon, and not let another lobbying group dictate meaningless laws over the desires of the public.
